Two fans are proposed to be installed over the dissection table. The two fans are perhaps necessary to dispel the bad odours which might emanate from the dead bodies. The hospital also is an important one i.e. Dist H.Q. Hospital. If two fans are usually provided in the Mortuaries of important hospitals like the General Hospital, Stanley Hospital, Gandhiji Memorial Hospital Trichi etc. the two fans proposed in the present case also may be allowed. If however the scale is one fan in these mortuaries attached to these important hospitals the two fans proposed over the dissection tables may be reduced to one. As the cost exceeds Rs 500/- circulation to M(W) also is necessary.

The case may be passed on to Finance.
